Spending on war and corporate interests has brought our country to the brink of collapse - socially, economically, and politically. Join RVA4Peace, the Richmond Left Libertarian Alliance, Richmond Peace Education Center, the Richmond Defenders, and other activists at a rally against U.S. policies abroad and the domestic price we pay for it. The rally will begin at the VA Employment Commission office (703 E Main St) at 4:30 PM. Then we'll march to Kanawha Plaza (8th and Canal) at 5:30 PM to hear speakers link the economic crisis with our militarist policies and what we can do about it!
